

```
graph BT; A[src/main.cpp] --> B[include/MainWindow.h]; B --> B;
```

include/MainWindow.h

The diagram illustrates a C++ source file, `src/main.cpp`, which includes a header file, `include/MainWindow.h`. A blue arrow points from the source file to the header file, and a curved blue arrow points from the header file back to itself, indicating a self-referencing include.

src/main.cpp
